Event program

AOCMF Symposium—Advances in Maxillofacial Reconstruction and Rehabilitation

May 17, 2017 Bengaluru, India
Mission

Our mission is to continuously set standards in postgraduate medical education and to foster the sharing of medically guided expertise in a worldwide network of healthcare professionals to improve patient care in trauma or disorders of the musculoskeletal system.

The AO Principles of fracture management

1. Fracture reduction and fixation to restore anatomical relationships.
2. Fracture fixation providing absolute or relative stability, as required by the “personality” of the fracture, the patient, and the injury.
3. Preservation of the blood supply to soft tissues and bone by gentle reduction techniques and careful handling.
4. Early and safe mobilization and rehabilitation of the injured part and the patient as a whole.
Welcome from International Chair

AOCMF

On behalf of AO CMF (the craniomaxillofacial clinical division of the AO Foundation), it is my pleasure to personally welcome you to this course. Each year, AOCMF provides over 110 educational opportunities to more than 4,500 passionate surgeons worldwide.

The mission of AOCMF is excellence in facial surgery across the specialties. We encourage the involvement of all interested professions, including oral and maxillofacial surgery, plastic surgery, ENT, oculoplastic surgery, and neurosurgery. To achieve our mission, we are committed to remaining at the forefront of education and new developments, by offering remarkable learning and networking experiences focusing on craniomaxillofacial trauma and reconstruction.

Through our courses, membership program, and our website, our goal is to encourage and inspire surgeons—including residents, fellows, and practitioners—to pursue fulfilling careers in our field. In addition, we endeavor to provide lifelong learning opportunities and career development options for more experienced specialists in the most appropriate and useful ways as their needs evolve.

Your role is vital to improving patient care. We hope that your experience with our faculty, chairs, and your peers over the next few days will bring new knowledge, skills, and understanding that you can directly apply to your own practice. We look forward to your participation and encourage you to share your ideas, unique perspectives, and opinions, to help build and enhance our dynamic community, and contribute to the further development of craniomaxillofacial surgery.

I wish you an outstanding learning experience.

Yours sincerely,

Warren Schubert, MD
Chairperson
AOCMF, International Board
Welcome from AOCMF Asia Pacific

Dear colleagues,

The multispecialty organization—AOCMF Asia Pacific—includes 13 countries in the region. It is steadfast in its commitment to serve as the voice and resource for surgeons in the field of CMF reconstruction and trauma.

Numerous courses, seminars, workshops and symposia on basic and advanced CMF principles have been organized and conducted by the organization—educating surgeons, benefiting patients, and improving the quality of CMF healthcare. Therefore, it is with great pride and pleasure, that I warmly welcome you to another such educational activity organized by the AOCMF Asia Pacific.

On behalf of our organization, I thank all international, regional and local faculty members, and staff for their time and expertise put in to pave the way to the realization of this event. My utmost gratitude, likewise, goes to the industry providers and healthcare institutions for their logistical support and cooperation. I would also like to take this opportunity to congratulate the organizing committee for coming up with a relevant and state-of-the-art scientific program that will definitely stimulate the minds of all attendees—regardless of their personal specializations.

A note to the participants: I am confident that this excellent event will equip all the participants with current information, and will enhance your skills.

I am sure that everyone will enjoy the networking and fellowship programs, and form new and lasting friendships.

Last, but not the least, as you journey through your surgical career; I encourage you to join the AOCMF community. We are always ready to welcome keen minds as members, and even as future faculty.

Thank you.

Sincerely yours,

Francis V Roasa, MD
AOCMF Asia Pacific Chair
Goal of the symposium

To offer practical guidelines in reconstruction and rehabilitation of maxillofacial defects.

Target participants

Trainees and practicing surgeons from Oral and Maxillofacial Surgery, Plastic Surgery and Otolaryngology with an interest in maxillofacial reconstruction and rehabilitation.

Learning objectives

• Explain the steps in digital planning for maxillofacial reconstruction and rehabilitation
• Describe the defect sub-site based reconstructive techniques
• Discuss the latest advances in tissue engineering

Symposium description

An advanced AOCMF symposium that integrates maxillofacial reconstruction and rehabilitation techniques. The symposium is led by an international multi-disciplinary faculty.
Course Director                  Course Chair

Moni Kuriakose
Mazumdar-Shaw Cancer Centre
India, Bengaluru

Anantheswara Rao
Manipal Hospital
India, Bengaluru

International Faculty

Miles                  Brett
Mount Sinai School of Medicine
USA                  New York
Parmar                 Satyesh
Queen Elizabeth Hospital
UK                  Birmingham

Regional Faculty

Batstone              Martin
Royal Brisbane Hospital
Australia          Herston
Cai                   Zhigang
Peking School of Stomatology
China              Beijing

Guest Faculty

Kontio                Risto
Helsinki University Central Hospital
Finland             Helsinki
Krishnan             Gopal
S D M College of Dental Sciences
India              Dharwad
Sanchez                Gregorio
12 de Octubre University Hospital
Spain              Madrid

National Faculty

Iyer                  Subramania
Amrita Institute of Medical Sciences
India              Kochi

Local Faculty

Jacob                 PC

INR 2500
Included in event fee are coffee break, lunch, certificate and event materials.

Evaluation guidelines
All AOCMF events apply the same evaluation process, either audience response system (ARS) or paper & pencil questionnaires. This will help AOCMF to ensure that we continue to meet your training needs. In some regions, CME accreditation is dependent on the participant’s evaluation results.

Intellectual property
Event materials, presentations, and case studies are the intellectual property of the event faculty. All rights are reserved. Check hazards and legal restrictions on www.aofoundation.org/legal.

Recording, photographing, or copying of lectures, practical exercises, case discussions, or any course materials is absolutely forbidden. Participants violating intellectual property will be dismissed.

The AO Foundation reserves the right to film, photograph, and audio record during their events. Participants must understand that in this context they may appear in these recorded materials. The AO Foundation assumes participants agree that these recorded materials may be used for AO marketing and other purposes, and made available to the public.

Security
Please wear a name tag during lectures, workshops, group discussions.

No insurance
The event organization does not take out insurance to cover any individual against accidents, thefts or other risks.

Mobile phone use
Use of mobile phones is not allowed in the lecture halls and in other rooms during educational activities. Please be considerate of others by turning your mobile off.

Nov 01, Baroda

AOCMF Seminar—Advances in Maxillofacial Surgery
Nov 15-16, Nagpur

AOCMF Introductory Seminar
December 1, TBD
AO Foundation—Principles of AO Educational Events

1) Academic independence

Development of all curricula, design of scientific event programs, and selection of faculty are the sole responsibilities of volunteer surgeons from the AO network. All education is planned based on needs assessment data, designed and evaluated using concepts and evidence from the most current medical education research, and involving the expertise of the AO Education Institute (www.aofoundation.org). Industry participation is not allowed during the entire curriculum development and planning process to ensure academic independence and to keep content free from bias.

2) Compliance to accreditation and industry codes

All planning, organization, and execution of educational activities follow existing codes for accreditation of high-quality education:

- Accreditation Criteria of the Accreditation Council for Continuing Medical Education, USA (www.accme.org)
- ACCME Standards for Commercial Support: Standards to Ensure Independence in CME Activities (www.accme.org)
- Criteria for Accreditation of Live Educational Events of the European Accreditation Council for Continuing Medical Education (www.uems.eu)

Events that receive direct or indirect unrestricted educational grants or in-kind support from industry also follow the ethical codes of the medical industry, such as:

- Eucomed Guidelines on Interactions with Healthcare Professionals (www.medtecheurope.org)
- AdvaMed Code of Ethics on Interactions with Health Care Professionals (advamed.org)
- Mecomed Guidelines on Interactions with Healthcare Professionals (www.mecomed.org)

3) Branding and advertising

No industry logos or advertising (with the exception of the AO Foundation and AO Clinical Division) are permitted in the area where educational activities take place. Sponsors providing financial or in-kind support are allowed to have a promotional booth or run activities outside the educational area with approval from the event chairperson.

4) Use of technologies and products in simulations

Case simulations are chosen as an educational method to educate skills, we only use technology approved by the AOTK System (AOTK)—a large independent group of volunteer surgeons developing and peer-reviewing new technology (more information about AOTK, its development and approval process can be found on the AO Foundation website: www.aofoundation.org).

5) Personnel

Industry staff is not allowed to interfere with the educational content or engage in educational activities during the event.
Your benefits as an AOCMF Member

- Networking
- 10% discount on AO Publications
- Teaching videos
- Fellowships
- Science Direct
- AOCMF Directory
- Print copy of JCMTR
- Case Base
- Full access to AO Surgery Reference
- JCMTR online access
- 25% discount on AOCMF Manual

Exclusively:
- For members and e-members: AOCMF Directory
- For members: Print copy of JCMTR
